Journal of Teacher Education Index to Volume XXIII (1972)

This subject index has been prepared by the ERIC Clearinghouse on Teacher Education, using the same ERIC descriptors (index terms) which have been used to index the articles in the monthly publication, *Current Index to Journals in Education*. By this means it is possible not only to locate *Journal of Teacher Education* articles on a specific topic but also, by using the same descriptors, to find related articles from other journals in *CIJE*.

We believe that this extended index will greatly facilitate the use of the separate issues of *Journal of Teacher Education* and make them a more readily accessible reference source.

Subject Index
